Valerie brings her audiences to life with topics such as:

BRING JOY TO LIFE IN DEI

Initiatives related to diversity, equity, and inclusion are often deeply rooted in legal compliance. Yet there is often a missing ingredient. JOY! Joy is harnessing the power of the human spirit to create a culture of curiosity and connection between people. It transforms the inner world of the people those same systems are designed to impact and can move them from compliance to compassion.

- Identify and disrupt patterns that prevent them from connecting with others.
- Expand and collaborate with their network of allies.
- Increase confidence when working with cross-cultural teams.

CREATING YOUR CIRCLE OF INFLUENCERS

If individuals or teams set goals and then expect to achieve them on their own, their success might be limited. When they intentionally seek to build meaningful relationships with people who possess key strengths, resources and connections, they optimize their chances for success. Along with Valerie's expertise and personalized approach, leaders can achieve the goals that bring their vision to life.

- Evaluate, define and leverage current relationships.
- Explore four types of relationships essential to an effective circle of influencers.
- Create a strategy to revitalize your circle.

LISTENING FOR GREATNESS: PRACTICAL EMPATHY

When one is learning how to effectively communicate, the focus is typically on speaking. However, extraordinary service and leadership are fundamentally grounded on how individuals listen and then mindfully choose how to respond. Listening is the first step in creating space for empathy, managing conflict, and building understanding.

- Practice remaining present and grounded in stressful situations.
- Exercise non-verbal and verbal communication techniques.
- Build influence and effectively connect with others.

“Valerie has an incredible ability to make an immediate connection with all people. She has a **DYNAMIC PRESENCE** that **CAPTURES YOUR ATTENTION** and naturally **INSPIRES PARTICIPATION**. Her engaging style motivates attendees to create action plans to follow through with personal and professional goals. I've witnessed the positive impact she has on leaders.”
